I just wanted to take time and express sincere gratitude for you working so diligently to help us with sponsorship for our basketball outreach programs. Of course we were initially cautious as we entered this new territory, but your approach allowed us to navigate down this path harmoniously.

It has been nearly overwhelming how we are serving more people in this outreach than we ever have, yet things are running more efficiently. You shared with me in the beginning that it was your intent to help those who serve, serve at a higher level. I can say that your actions were consistent with your intent. Our ministry is stronger and reaching out on a level that we had not prior to connecting with your organization. We're hopeful to work together in coming times and ventures. It's been a blessing to partner with Gospelbiz, as well James & Barb Sullivan. Their attention to detail, humility, patience and servant's heart made the transition easy.

May you receive all of the peace, blessing and mercy that our heavenly father bestows.

In love,

Herb Caldwell
