Dear James;

I just wanted to let you know how very pleased we are with our program booklets – as you can see, they are beautiful! The quality printing and the full color, high gloss pages make a very professional statement, which is exactly what we were trying to portray. In spite of the limited time frame we were working in, they arrived earlier than we thought which really alleviated a lot of my pre-banquet anxiety.

I had originally decided to print this booklet on my copier, but I realize now that I never could have produced such a quality product. Thank you for your patience with me as you walked me through the entire process step by step. You made a complicated process seem very easy.

Without hesitation, I can honestly say that we will definitely use Gospelbiz for any future fundraisers. I'm already singing your praises to other ministries.

Thank you, your staff and Gospelbiz for helping to make our fundraising event a great success. We couldn't do it without you!

Sincerely,
